

MolGen Takes Part at SLAS Europe Fair in Dublin, Ireland

Veenendaal, May 18th 2022 - MolGen b.v. of Veenendaal (NL), a global solutions provider of innovative extraction DNA / RNA isolation technology, hardware, systems, consumables and reagents for human diagnostics, agricultural research, and the biotech industry is attending the SLAS Europe Fair, in Dublin, on the 24-27th of May 2022.

The SLAS fair is organised by the Society for Laboratory Automation and Screening with the goal of connecting laboratory scientists, governments, engineers, firms, researchers, and the most important stakeholders of the scientific community to exchange and encourage the advances in life discovery and technology. MolGen is looking forward to being part of this international event, exhibiting its latest innovations in laboratory workflow technologies and biotech.

“Aware of the importance of automation to scale up and provide high throughput, MolGen has developed customised solutions to improve laboratories workflows making it safer, efficient and at a lower price point.” - said Niels Kruize, CCO MolGen. Among these automated systems, the liquid handling decapping and pipetting Tube Transfer System can manage up to 320 tubes an hour. On its turn, PurePrep 96 is an automated DNA and RNA purification system, suitable for high throughput workflows with up to 96 samples per run and process samples up to 1ml.

ABOUT MOLGEN

MolGen accelerates laboratories' success. MolGen is a global total solution provider of innovative extraction DNA / RNA technology, hardware, consumables, reagents, service and software for human and animal diagnostics, the agriculture and biotech industries. MolGen's systems, reagents and consumables enable laboratories to accelerate productivity, while maintaining the highest standards of quality and throughput. MolGen's solutions reduce hands-on time while also delivering high yields and reproducibility. From sample to result, MolGen is challenging the status quo in molecular diagnostics by offering platform stand-alone systems and consumables. Founded on integrity and accountability, MolGen offers every customer high-quality, adaptable, and safe workflows, which can be customised to meet their specific throughput needs.
